

## Agenda 21 and our rights

Sunday, 31 July 2011

Last Updated Sunday, 31 July 2011

Found this in a forum, discussing Agenda 21 and the massive land grab going on today. Good read, follow the links to sign the petition.

According to the United Nations, Agenda 21 is a comprehensive plan of action to be taken globally, nationally and locally by organizations of the United Nations System, Governments, and Major Groups in every area in which humans impact the environment.

In other words the American people, and their every action, are being ruled, regulated, restricted, licensed, registered, directed, checked, inspected, measured, numbered, counted, rated, stamped, censured, authorized, admonished, refused, prevented, drilled, indoctrinated, monopolized, extorted, robbed, hoaxed, fined, harassed, disarmed, dishonored, fleeced, exploited, assessed, and taxed to the point of suffocation and desperation.

According to the United Nations, Agenda 21 is a comprehensive plan of action to be taken globally, nationally and locally by organizations of the United Nations System, Governments, and Major Groups in every area in which humans impact the environment.

In other words the American people, and their every action, are being ruled, regulated, restricted, licensed, registered, directed, checked, inspected, measured, numbered, counted, rated, stamped, censured, authorized, admonished, refused, prevented, drilled, indoctrinated, monopolized, extorted, robbed, hoaxed, fined, harassed, disarmed, dishonored, fleeced, exploited, assessed, and taxed to the point of suffocation and desperation.

America is drowning in a sea of rules and regulations, particularly under the guise of "saving the environment."

Look into it and see why we are losing our rights at an alarming rate.

The UN is taking control of U.S. land in the name of conservation and we aren't even allowed to set foot on it!

Since 1978, without Congressional approval, 47 U.N. "Biosphere Reserves" have been established on 43,560,254 acres (68,863 sq. miles) of United States soil. Two designations of 'international status' by the United Nations currently take place with no need of congressional approval: UNESCO Biosphere Reserves and World Heritage Sites.

United Nations bureaucrats have the final say over acquisition of Biosphere reserves and World Heritage Sites, and no public hearings in the United States are required. Third world and communist dictatorships decide what goes on in Americans' backyards, and our elected officials have nothing to say about it. The United States part of the Biosphere reserve program is run by a committee of ten federal agencies, with no congressional direction or authorization. Biosphere reserves in 1998 contained a total land area larger than the State of Colorado.

The United States now has 20 World Heritage Sites, 18 of which are national parks and include the Statue of Liberty and Independence Hall. Over 68 percent of our national parks, preserves and monuments are currently designated as United Nations World Heritage Sites.

The federal government has seized and continues to seize vast areas of America, placing it off-limits to our Sovereign people. Consider that:

The western areas of the United States have been raped by the federal government. Vast stretches of valuable mineral producing land, pasture and grazing land have been stolen from the states and people who live there, and held under federal domain.

Few Americans outside the western U.S. are aware of the amount of federal land seizures in the west. Alaska, with a total land area of 365,481,600 acres, has seen the federal government seize 166,513,594 acres &ndash; nearly 46-percent. The federal seizure of Alaskan lands is nearly equal to the entire land area of Texas. Or, if you prefer, an area nearly twice the size of California. Now, why do you suppose the federal government wants Alaskan land? Well, Alaska has more forested land than any other state. Gold has been discovered in large quantities in at least three areas of the state and Alaska sits on tremendous oil reserves.
